

## Silicon Rubber Cold Shrink Tube With Mastic

### 1.Introduce

**SR CST(M)** series of silicon rubber cold shrink tube is made from silicon rubber material with mastic on the two ends,suitable for the sealing and protection to communication cable in mobile station.It is very simple to install.The material with good weather resistance,bacteria resistance and so on. Also it is approval by Rohs.

### 2.Technical Data

Property	Test Method	Result
Tensile strength	ASTM D412	7MPa
Elongation	ASTM D412	670%
Tear strength	ASTMD751	34KN/m
Dielectric strength	ASTM D149	25kv/mm
Shore A	ASTM D2240	42

### 3.Type and Size

Size	Application Range (mm/inch)	Length after Relaxed (mm/inch)	Color
φ28	9~23/0.36~0.9	110~450/4.33~17.71	Grey
φ32	9~26/0.36~1.02	110~450/3.5~17.71	Grey
φ44	12.7~38/0.50~1.49	125~450/3.5~17.71	Grey

The shrinkage ratio can be 5:1

Other sizes,length&color can be customized.
